Dear Professor Dimitrijevic,

### Thank you: contribution to MRC peer review

I am writing to thank you for your significant contribution to MRC peer review.

Peer Review is the cornerstone of the work of the MRC and as a peer reviewer you have an integral role in upholding research excellence and maintaining research quality.

Our records indicate you reviewed four or more applications for MRC funding over the past year and for this we are extremely grateful. You are among a select group of MRC reviewers that have achieved this outstanding level of contribution and you may wish to share this achievement with your University or Research Organisation. If you haven't already, you may also wish to get formal recognition through the ORCID reviewer recognition scheme <https://www.ukri.org/apply-for-funding/how-we-make-decisions/get-recognition-as-a-ukri-reviewer/>.

Advice from independent scientific experts, such as yourself, is invaluable in helping the MRC Boards and Panels make funding decisions on how the public funds we award to outstanding health research each year should be distributed. Your reviews have also been used to provide constructive feedback to applicants, offering them the opportunity to improve their research. Your time and effort in reviewing multiple applications submitted to the MRC is much appreciated, we know there are many other demands on your time.

If you wish to know the final outcome of the applications you reviewed, all funding decisions can be found at: [www.mrc.ac.uk/research/funded-research/board-panel-meeting-outcomes/](http://www.mrc.ac.uk/research/funded-research/board-panel-meeting-outcomes/).

Once again, many thanks for your continued involvement with MRC peer review.

Kind regards,

Professor Fiona M. Watt FRS FMedSci,  
Executive Chair Medical Research Council  
58 Victoria Embankment, London, EC4Y 0DS
