

Donington Park is situated right at the heart of England, just minutes from M1 junction 23a and MOTO Donington Park Motorway Services and Travelodge, or junction 24 southbound.

Address: Donington Park
Castle Donington
Derby DE74 2RP

TA Instruments

UK Users Meeting 2012

6th November • Donington Park

Thermal Analysis, Rheology, Microcalorimetry and
Thermophysical Properties Measurements

Speakers include:

James Thomason, The University of Strathclyde,
"A Novel Combination of Micromechanical Testing And Thermal Analysis to Investigate the Temperature Dependence of Interfacial Adhesion in Fibre Reinforced Polymer Composites"

Olivia Smith, Cytec Engineered Materials Ltd,
"Development and Analysis of Carbon Composites"

Tom Hancock, BP Global Lubricants Ltd,
"Thermal Analysis in the Development of Advanced Engine Oils"

Nicholas Hawkins, University of Oxford,
"Turning up the heat: methods for analysing protein denaturation"

Heinz Baehr, BÄHR Thermoanalyse / TA Instruments,
"Dilatometers for Operation under Various Atmospheres and Optical Dilatometry"

Phil Davies, TA Instruments Ltd,
"Approaches for the Measurement of Thermal Conductivity and Thermal Diffusivity of Materials"

Peter Hodder, TA Instruments Ltd,
"New Technologies for Rheological Characterisation"

TA Instruments, a division of Waters Ltd, is pleased to invite you to our annual user meeting. The latest developments in thermal, thermophysical and rheological measurements will be presented.

Specialists from industry and academics will share their applications with you. This seminar is also the perfect opportunity to meet and discuss any questions you may have with the applications and service specialists. Users of all brands of equipment are encouraged to participate. If you are not yet using these characterization techniques this is the perfect seminar to find out what benefits they can offer your company.

In addition to the presentations, we would also like to offer the opportunity to present your research in the poster sessions scheduled during the breaks and lunch. Please do not forget to let us know you would like pre present a poster when you register.

Registration for the day is free of charge and includes lunches, refreshments and access to the Grand Prix Collection museum.

To register please go online to:
