

Euan Minto Prize

The Euan Minto Prize is a prize awarded annually to the author of the best paper authored by a research student in the previous academic year. The prize was established in memory of Euan Minto, a former undergraduate and PhD student in the Department. The competition is judged by the current research students in the department.

Previous Winners

2017

Yazeed Alkhourayyif and George Weir for the paper "Evaluating Readability as a Factor in Information Security Policies"

2016

Rafiq Almaghairbe for his paper 'Separating passing and failing test executions by clustering anomalies'

2015

Katherine Loudon for her paper "The everyday life information seeking behaviours of first-time mothers"

Aydin Abadi for his paper "O-PSI: delegated private set intersection on outsourced datasets"

2014

Lauren Smith for her paper "Critical Information Literacy for the Development of Political Agency"

2013

Steven Davies for the paper "'Bug Localisation through Diverse Sources of Information"

Cathy Foster for the paper "Do Librarians have a Shared Set of Values?"

2012

Emma Nicol

2011

Steven Davies

2010

Martin Goodfellow

2009

Morgan Harvey for the paper "Folksonomic Tag Clouds as an Aid to Content Indexing".

2008

Christine Rooney-Browne (joint winner)

Frøy Birte Bjørneseth (joint winner) .

2007

Konstantinos Liaskos for Konstantinos Liaskos and Marc Roper "Automatic Test-Data Generation: An Immunological Approach." Testing: Accademic and Industrial Conference - Practice and Research Techniques (TAIC PART). 2007.

2006

Noorhidawati Abdullah (joint winner)

Ann Nosseir (joint winner)

2005

Ann Nosseir (joint winner) for Ann Nosseir Richard Connor Mark Dunlop. "Internet Authentication Based on Personal History –Feasibility Test". Proceedings of Customer Focused Mobile Services Workshop at WWW2005. 2005

David Elswailer (joint winner,) for D. Elswailer, I. Ruthven, and C. Jones. "Dealing with fragmented recollection of context in information management."Context-Based Information Retrieval (CIR-05) Workshop in Fifth International and Interdisciplinary Conference on Modeling and Using Context (CONTEXT-05). 2005

2004

Heather Du for Heather Du and Fabio Crestani."Retrieval Effectiveness of Written and Spoken Queries: an Experimental Evaluation." Proceedings of 6th International Conference On Flexible Query Answering Systems. Lyon. 2004

2003

Neil Walkinshaw for Neil Walkinshaw, Marc Roper, Murray Wood. "The Java System Dependence Graph". 3rd IEEE International Workshop on Source Code Analysis and Manipulation. Amsterdam, 2003

2002

Alastair Dunsmore for Alastair Dunsmore, Marc Roper, Murray Wood. "Systematic Object-Oriented Inspection - An Emprirical Study." Proceedings of the 23rd International Conference on Software Engineering, (ICSE, Toronto. 2001.
